RE: RFP #VTA2009-105 Request for Professional Legal Services

Dear Respondent:

The Vermont Telecommunications Authority (VTA) seeks a proposal from your firm to provide legal services in assisting the Authority with the negotiation and finalization of certain contracts. The VTA is now in the process of selecting a mobile service provider (MSP) to build and operate a network of up to two hundred cell sites. The VTA previously selected Earth Turbines as its contractor to install up to two hundred cellular wind turbines (CWT) that will serve as the cellular tower structures.

The VTA will necessarily contract(s) with the MSP finalist in conjunction with Earth Turbines and select landowners. The contractual relationship between the three parties needs to be defined in a four-week period beginning on or about April 6, 2009.

If you are interested in bidding on this work, please submit a proposal to me by April 3, 2009. The proposal should identify the individual(s) who will do the work and describe their respective qualifications. Your proposal should also include a detailed fee schedule.

If you have any questions about this request, please call me at 802-828-1788.

Very truly yours,

Arthur Bartlett, CFO  
Vermont Telecommunications Authority
